

WET ONES® ANTIBACTERIAL HAND & FACE WIPES FACT SHEET

WHAT ARE WET ONES®?

Wet Ones® Antibacterial Hand Wipes are an easy, quick solution to keep hands clean when on the go *and* kill 99.99 percent of germs.

STAYING HEALTHY WITH WET ONES®

Germs are spread when droplets from a cough or sneeze travel through the air and reach people and surfaces nearby. They are also spread when a person touches a contaminated surface and then touches their own eyes, mouth or nose before washing their hands. In fact, most germs are spread via contaminated surfaces. Some viruses and bacteria can live at least two hours on surfaces like cafeteria tables, doorknobs or desks.

The first and easiest line of defense against the spread of germs is to wash hands often. When soap and water are not available, an antibacterial hand wipe like Wet Ones® Antibacterial Wipes are an effective alternative. Wet Ones® antibacterial wipes are laboratory proven to be just as effective as alcohol-based gel hand sanitizers in killing 99.99 percent of germs, but they also clean away dirt and messes and won't dry out skin like alcohol-based hand sanitizers.

USAGE

Wet Ones® wipes are portable and can be used in any situation where soap and water are not accessible. They come in convenient sizes that enable them to be discreetly tucked into school lunches, brought on airplanes or used whenever a sink is out of reach.

PRODUCTS

Available in two fragrances, Fresh and Citrus Scent, Wet Ones® Antibacterial Hand & Face Wipes come in three different sizes:

- 40 count canister, which is designed to fit into a standard car cup holder
- 15 count travel pack
- 24 count of individually wrapped single wipes

Hypoallergenic and enriched with skin conditioning aloe, they are also gentle on skin.

And for life's bigger messes, Wet Ones® Big Ones® wipes are also antibacterial and available in Fresh and Citrus Scent. They come in a 35 count re-sealable pouch and are 50 percent bigger than regular Wet Ones® wipes.
